

GAME RULES

88 Lasertag Outdoor

Read these rules carefully before the game starts. Everyone who takes part agrees to the rules below. The staff member can remove any player from the game who does not respect these rules.

01. No physical contact

Pushing, pulling, tackling or fighting is strictly forbidden. Lasertag is a tactical game, not a contact sport.

02. Do not climb on obstacles

Keep both feet on the ground. Do not climb on obstacles, trees, fences or structures — risk of falling and damage.

03. Do not cover or tamper with sensors

Sensors on the device must not be covered, held or damaged. Players covering sensors will be disqualified.

04. Handle the gaming guns safely

Treat the device with respect. Do not throw, hit or drop it. Damage caused by careless use will be charged.

05. Follow the staff member's instructions

The staff member is always in charge. Their instructions must be followed immediately, also during the game.

06. Stay inside the playing area

Never leave the marked area during the game, not even to fetch a ball or object. Always ask the staff member.

07. Appropriate clothing and shoes

Wear sturdy, closed shoes and clothes that may get dirty. No sandals, no loose jewellery, long hair tied back.

08. Respect for fellow players and equipment

Bullying, swearing or deliberately damaging equipment leads to immediate exclusion without refund.

09. Need a break or stop?

Feeling unwell, injured or want to stop? Call the staff member immediately — safety always comes before the game.

Have fun and good luck on the battlefield!
